

Office of the Adjudicator – Broadcast Transmission Services

Report for the period 1 October 2021 – 31 December 2021

Contents:

- 1. Background**
- 2. Office of the Adjudicator**
- 3. Disputes and guidance**
- 4. Publication of reference offers**
- 5. Reporting and audit**
- 6. Planned future activity**

1. Background

On 11 March 2008, the Competition Commission (CC) announced its decision to allow the merger of transmission companies Arqiva and National Grid Wireless (NGW) subject to the agreement of a package of measures (undertakings) to protect the interests of their customers.

Arqiva and NGW overlap in the provision of Managed Transmission Services (MTS) and Network Access (NA) to transmitter sites and associated facilities for terrestrial television and radio broadcasters. In its final report, the CC found that Arqiva and NGW were the only active providers of MTS/NA to the UK television broadcasters. The companies were also the most significant providers of national MTS/NA to UK radio broadcasters with a combined market share of more than 85%. In both cases, prior to merger, the companies had exercised a competitive constraint on each other.

The CC concluded the merger of the two companies would lead to a “substantial lessening of competition” in broadcast transmission services, specifically in the provision of MTS/NA to television and radio broadcasters.

After consultation by the CC with Arqiva, its customers and other stakeholders, the Commission accepted certain undertakings from Arqiva on 1 September 2008.

http://webarchive.nationalarchives.gov.uk/20140402141250/http://competition-commission.org.uk/inquiries/ref2007/macquarie/pdf/notice_undertakings.pdf

The Undertakings are intended to mitigate the substantial lessening of competition by protecting existing and new customers over the terms and conditions of supply, including protection against future price rises and protection against changes in non-price related areas (such as discrimination issues and service standards).

The Undertakings provide for the appointment of an Adjudicator, as described in Appendix 1 (Adjudication Scheme) and Appendix 2 (Adjudication Rules). The main role of the Adjudicator is to determine disputes arising out of the operation of the Undertakings.

Paragraph 35 of Appendix 1 to the Undertakings requires the Adjudicator to make periodic reports to the Office of Fair Trading (now the Competition and Markets Authority), copied to Ofcom, covering the following points:

- Any Guidance issued
- Determinations in relation to Disputes
- The views of the Adjudicator about the operation of the Undertakings, the Adjudication Scheme and Adjudication Rules as well as any recommendations for amendments
- The views of the Adjudicator on the performance of Arqiva in complying with the Undertakings

This report covers the operation of the Office of the Adjudicator over the period from 1 October 2021 to 31 December 2021. This report will be published on the website of the Adjudicator (www.ota-bts.org.uk) with any information that the Adjudicator regards as confidential redacted.

2. Office of the Adjudicator

2.1 Adjudicator

The Office consists of Alan Watson as Adjudicator and Jon Butler as Deputy, both are part time. Megan Donald is Executive Assistant and Office Manager, also on a part time basis.

Legal advice is provided by Mr Richard Pull of Goodman Derrick LLP.

The Adjudicator and Deputy have vacated the office at Ofcom, but Megan remains based there.

During the present Covid-19 crisis, the Office is continuing operation on a dispersed basis with contact being by telephone or video conference. Scheduled meetings with Arqiva and others have continued online.

Deputy	jon.butler@ota-bts.org.uk
Exec asst	megan.donald@ota-bts.org.uk

2.2 Budget

Expenditure from 1 April 2020 to 31 December 2021 was £312,240 against the annual budget of £468,400. None of the contingency of £470,000 has been used.

2.3 Stakeholder Meetings

During this period regular communication with stakeholders has continued by phone and video conference and includes government departments, television broadcasters and radio broadcasters, both large and small:

Confidential information redacted

2.4 Arqiva

Paragraph 35 of Appendix 1 of the Undertakings requires the Adjudicator to comment on the performance of Arqiva over this period, in relation to the Undertakings.

The performance of Arqiva continues to be generally satisfactory.

3 Disputes and Guidance

In this period there have been no disputes requiring the use of the formal dispute procedure. Further information on Guidance can be found in Paragraph 6.1 of this document.

4 Publication of Reference Offers.

No new reference offers have been published in this period; previous ones can be found at:

<https://www.argiva.com/documentation>

The 2021-2 radio rate card for site access can be found at the above link within the “reference offers” tab.

5 Reporting and Audit

5.1 Regulatory Accounts

Arqiva is obliged to produce annual accounts in accordance with the requirements set out in Paragraph 15 and Appendix 14 of the Undertakings.

The Regulatory Accounting Principles and Methodologies (RAPAMS) which set out how the accounts are produced and are approved by the Adjudicator can be found at the link below, together with the regulated accounts for the period 1 July 2020 to 30 June 2021.

<https://www.argiva.com/documentation>

Look under the “regulatory” tab.

5.2 Compliance Report

Paragraph 18.1 of the Undertakings requires Arqiva to deliver an annual report to the Office of Fair Trading (now the Competition and Markets Authority) setting out steps taken to comply with the Undertakings and details of any breaches and including steps taken to remedy them.

The 2021 report has been delivered to the CMA, Ofcom, and the Adjudicator. There were no instances of non-compliance.

5.3 The Undertakings

The Adjudicator believes that the Undertakings, the Adjudication Scheme and Adjudication Rules are satisfactory at the present time and that no changes are needed.

5.4 Information Security Strategy

Paragraph 16.2 of the Undertakings requires Arqiva to produce an Information Security Strategy (ISS) which defines the measures to be taken to ensure that confidential information held in one part of the company cannot be used by another for commercial advantage.

The Information Security Strategy can be found at:

<https://www.argiva.com/documentation>

Look under the “corporate” tab.

The Adjudicator audits the Information Security Strategy from time to time. The full report of the last audit is attached to the March 2019 Adjudicator’s quarterly report.

Following the divestment of the telecoms business and subsequent reorganisation, the Adjudicator is undertaking an audit to ensure that the requirements of the ISS are met within the new structure. To date, Arqiva have presented the new structure and explained its working with regard to ISS; the next step, which is in progress, is to undertake an ISS audit.

6 Planned future activity

6.1 Guidance

The Adjudicator has previously issued guidance covering Paragraphs 6 and 9-12 of the Undertakings. The Adjudicator considers that no further guidance is currently required in relation to Paragraph 6 of the Undertakings.

At present the Adjudicator is of the opinion that no Guidance is required in relation to Paragraph 3 of the Undertakings. Application of, and compliance with, this paragraph will be monitored, and Guidance issued if necessary.

The Adjudicator holds a series of documents produced by Ofcom which cover detailed guidance for producing reference offers. Some of this is specific to the historic high power DTT reference offer and so the Adjudicator has prepared and published a summary document which covers the aspects which constitute current guidance.

<https://www.ota-bts.org.uk/guidance.html>

6.2 Audits

Arqiva use a database system to store site infrastructure records. The database records a variety of site data which includes information relating to the height, type and location of antenna systems. Antenna information from the database is used to determine the loading which the antenna system places upon the site mast or tower. This loading (windloading) is used to calculate the charges to the users of the antenna systems.

The Adjudicator has undertaken five audits of Arqiva's site infrastructure records, the first in 2016 and the most recent was published in Q3 2020.

Arqiva are replacing the KEEP site records system with a new database system from Siterra. The Adjudicator has commenced an audit of the new system. The first part of this audit is to review the transfer process from the old to the new system to ensure data integrity of the windloading calculations. The integrity of this data is important as it ensures correct calculation of the sharing charges. This stage is complete and the results satisfactory; the next stage is to review site specific windloading calculations before and after data migration.
